DETAILED ACTION

Allowable Subject Matter

1. Claims 1-30 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Regarding independent claim 1, the applicant's particular method comprising:

[determining a first burner dome to be adjusted in said gas turbine engine for a first burner mode;

upwardly adjusting a ring flame temperature at said first burner dome in said gas turbine engine so as to determine a maximum ring flame temperature operational boundary for said first burner dome upon determination of one or more of: lean blowout conditions, exceeded predefined liner and dome metal temperature limits, combustion dynamic pressures, and emissions limits, with the determined maximum ring flame temperature operational boundary representing a maximum ring flame temperature to be permitted by the controller].

The dependent claims, being further limiting to the independent claims, definite and enabled by the Specification are also allowed.

This statement is not intended to necessarily state all the reasons for allowance or all the details why the claims are allowed and has not been written to specifically or impliedly state that all the reasons for allowance are set forth (MPEP 1302.14).

The closest prior art, Rajamani (US 5896736) discloses [a load rejecting rapid acting fuel air controller for a gas turbine]. Rajamani does not disclose the claimed [adjusting a ring flame temperatureto determine a maximum ring flame temperature boundary; recording into memory a plurality of parameters from a plurality of sensors coupled to said gas turbine

engine operating at said maximum ring flame temperature; subtracting a minimum ring flame temperature; calculating a nominal ring flame temperature from the minimum and maximum ring flame temperature]. Thus, the closest prior art fails to anticipate or render Applicant's limitations above obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
